			50
4	Page 6	1	Page 8 A. I do not know.
1	A. Just a little. Q. Do you write any English or read any English?	2	Q. You came here and are leaving here as a
2	Q. Do you write any English or read any English? A. A little.	3	passenger, not as a crew member; correct?
3 4	Q. Do you read an English newspaper?	4	A. Yes.
5	A. I do not.	5	Q. In preparation for your deposition here, did
6	Q. Let me get some background on you. How long	6	you review any documents, sir?
7	have you been employed at ANA?	7	A. Yes.
8	A. 17 years.	8	Q. And what did you review?
9	Q. And what positions have you held there?	9	A. The documents that were produced to NTSB.
10	A. I was a copilot. I am a captain now.	10	Q. And do you understand, sir, if those were
11	Q. When did you become a captain?	11	documents produced by ANA to the NTSB?
12	A. It was 2004.	12	A. Yes.
13	Q. In order to become a captain from a copilot,	13	Q. And did you review any other documents, sir?
14	what requirements did you have to meet?	14	A. What kind of documents? About what?
15	A. Can you be more specific.	15	Q. Any documents at all in preparation for your
16	Q. Were you promoted to captain just because	16	giving the deposition today. Did you review anything
17	you've been there a number of years, or did you have to	17	other than the submission to the NTSB?
18	meet some requirements?	18	A. The Japanese documents that were translated
19	A. When you say requirements, what kind of	19	into English were submitted to NTSB, and I have not seen
20	requirements?	20	any document other than those.
21	Q. Well, you tell me. You work for the airline.	21	Q. Okay. Do you have any piloting experience before you joined ANA, or is all your piloting time
22	You tell me what the requirements are for somebody to go	22 23	while employed at ANA?
23	from a copilot to a captain at ANA.	24	A. No.
24 25	A. There are ANA requirements.Q. Now, I'll ask you again, sir, as I did before,	25	Q. I'm sorry? I missed it.
	Q. Now, I'll ask you again, sir, as I did before,		d. and any a support
	Page 7		Page 9
1	what are those requirements?	1	 No. To the first question, and yes to the
2	A. There are set requirements at the company, but	2	second.
3	I do not know the specifics at this time.	3	Q. You know, I apologize. I forgot what I asked.
4	 Q. So why you were promoted from copilot to 	4	A. I did not have any piloting experience before
5	captain, you have no idea is that your testimony, sir?	5	joining ANA. All my piloting experience was gained at
6	MR. TURNER: Objection as to form and	6	ANA.
7	attitude.	7	Q. The documents that you did review in
8	THE WITNESS: I fulfilled the requirements.	8	preparation for your deposition, were those in English?
9	That is how I became captain, but I do not know what the	9 10	A. No.Q. When you are a crew member of an ANA flight,
10	specific requirements were at this time.	11	are there occasions when you are designated to be the
11	MR. TORPEY: Q. When did you arrive in the	12	pilot that communicates with ATC? In other words,
12	U.S., sir? A. Yesterday morning.	13	you're the communicating pilot?
13	Q. And about what time?	14	A. Yes.
15	A. About now.	15	Q. And in order to be the pilot communicating,
16	Q. About now, about 10:00 a.m.?	16	you have to be able to speak in English; correct?
17	A. I don't have a specific recollection, but it	17	A. Yes.
18	was around this time now.	18	Q. How many total hours do you have as a pilot?
19	Q. When are you scheduled to go back?	19	A. I do not recall clearly.
20	A. Tomorrow.	20	Q. Do you have any estimate?
21	Q. At about what time?	21	A. Although I do not have a clear recollection,
22	A. I'm scheduled to leave the hotel about this	22	it would be about 19,000 hours up to now.
23	time which is around 10:00 o'clock.	23	Q. Were those all strike that.
24	Q. Okay. When did you next have a flight	24	What type of aircraft are you type-rated in?
25	scheduled as a crew member for ANA?	25	A. Boeing 767 and Boeing 777.
		3	

	Page 10		Page 12
1	Q. And when did you first get typed in a 777?	1	MR. TORPEY: I apologize. Sorry.
2	A. I do not have a clear recollection.	2	THE WITNESS: I would consider weather and
3	Q. Would it have been before the year 2000?	3	also make a general judgment.
4	A. Yes.	4	MR. TORPEY: Q. If the weather was well,
5	Q. Can you give me an estimate of how many hours	5	let me ask you strike that.
6	you have in type on that 777?	6	In addition to weather, what other factors do
7	A. Can it be approximate?	7	you consider in deciding whether you should be the
8	Q. Certainly.	8	flying pilot on a particular day?
9	A. About 5,000 hours.	9	MR. TURNER: Objection as to form.
10	Q. Now, those 5,000 hours in type, do you fly the	10	THE WITNESS: I would also consider the years
	777 generally the same amount of hours every month? It	11	of experience of the first officer.
11	may not be exact, but typically do you log your hours	12	MR. TORPEY: Q. And anything other than
12	the same for all 12 months of the year?	13	weather and the experience of the first officer that you
13	A. Yes.	14	would consider?
14	Q. About how many hours a month do you typically	15	A. The situation of the airplane or aircraft.
15	fly in a 777 as a crew member?	16	Q. Anything else?
16	A. The average would be about 70 hours.	17	A. There would be others, but I can't think of
17		18	them now.
18	Q. 70, seven zero? A. 70.	19	Q. Give me a couple of examples of, as you call
19	Q. Of those 70 hours a month in a 777, about how	20	it, situation of the airplane that you would consider in
20	many hours at least today is as pilot in command?	21	determining whether you or the first officer should be
21	A. It would be about three and a half years	22	the flying pilot.
22	because that would be the time period after I became	23	A. For example, if there is a failure or a
23		24	problem with the aircraft, I would fly the aircraft.
24	captain. Q. All right. Let me break it down. Prior to	25	CHECK INTERPRETER: The check interpreter
25	Q. All right. Let the break it down. Frior to	23	CHECK INTERNATION THE GROOT MESTPHOLOGIC
	Page 11		Page 13
1	becoming a captain in 2004, you were never a pilot in	1	would like to put on the record that the Japaneses word
2	command; correct?	2	that was translated either to failure or problem,
3	A. No. That's right.	3	f-u-g-u-a-i, which can be malfunction of some sort. It
4	Q. And of the 70 hours a month that you fly in a	4	can be, in terms of a degree of malfunction, can be very
5	777, of those 70 hours would be with you as pilot in	5	slight as compared to the English words used as failure
6	command?	6	or problem.
7	A. A rough estimate would be or a rough	7	That's okay. Just to put it on the record.
8	calculation would be about 60 hours.	8	MR. TORPEY: Q. Mr. Nishiguchi, for the 777,
9	Q. All right. And of the 70 hours per month you	9	you understand that there's an ANA operations manual;
10	average in a 777, how many of those hours are with you	10	correct?
11	as the flying pilot as opposed to the nonflying pilot?	11	A. Yes.
1.5	A About 25 hours about half	12	O. And are you and your crew members required to

A. About 35 hours, about half.

Q. As pilot in command, is it your decision to

decide whether you or the first officer will be the 14

flying pilot for a particular flight? 15

A. Yes.

Q. And how do you decide for a particular flight 17 whether it should be you or your first officer that 18 would be the flying pilot that day? 19

A. I make an overall judgment.

Q. What criteria would you use to say that 21

20

MR, TURNER: Excuse me.

CHECK INTERPRETER: The interpreter has not 24

25 completed.

Q. And are you and your crew members required to follow what it directs in the operation manual with regard to the operation of the 777 aircraft?

A. Yes.

Q. Are you familiar with something called a route 16 manual as well? 17

A. Yes.

Q. What's the difference between the route manual 19 and the ops manual? 20

A. The route manual is from the Jeppesen chart, and the operation manual describes the policies of ANA.

Q. Other than the ops manual and the route manual, are there any other manuals that are kept routinely in the cockpit of a 777 aircraft for ANA?

13

14

Page 16 Page 14 as before, about 35 hours. 1 A. Yes. Q. Now, when you were the first officer before Q. And what are those things? 2 2 you became a captain, was there any particular route 3 3 A. For example, the MEL, CDL manuals. 4 that you would typically fly, that you flew Q. Minimum equipment list? 4 5 predominantly? 5 A. That's right. 6 A. No. O. What do you mean by CDL? 6 7 Q. Did you fly all international, or did you fly A. I have forgotten. 7 Q. Let me show you what was marked yesterday as 8 domestic as well? 8 A. Both. 9 Exhibit 2, Mr. Nishiguchi, and have you look at the 9 Q. And would those flights that were not 10 second page. I'll share this with you. Let me hand you 10 international, would those also be in a 777? 11 11 this. 12 A. Yes. MR. TURNER: I would just comment for you, 12 Q. I know you've indicated you flew about 70 Mr. Torpey, that in view of some question yesterday as 13 13 to whether or not the first two pages of Exhibit 2 were hours a month. During those 70 hours, what would be an 14 14 correct, accurate translation of the Japanese version, average number of takeoffs and landings? 15 15 16 A. I do not know clearly. we did obtain that same section from the legal 16 Q. Okay. And can you give me an estimate. Would department, both the Japanese version at the time of the 17 17 accident and the current version, and we have it here in you say it would be, you know, your best estimate of how 18 18 many -- in an average month how many takeoffs and 19 case you're interested. 19 landings you would perform in the approximate 70 hours 20 MR. TORPEY: Well, I'm more than interested. 20 We had asked that it be produced, so if you have a 21 that you would be flying a 777? 21 document to produce. We don't have to discuss it in 22 A. It would be difficult for me to estimate such 22 number of times because it's so different between 23 23 front of the witness. international flights and domestic flights. MR. TURNER: Well, identify it. The version 24 24 that was in effect at the time the accident, lower 25 Q. Okay. Do you have a pilot logbook or 25 Page 17 Page 15 right-hand corner is dated 1999.11.1 number 84, and the documents that reflect the number of hours that you are 1 2 flying? 2 current one is 2004.8.1, number 121. (Whereupon, Exhibits 8 and 9 were marked for 3 There is no document. 3 4 Q. Do you know what a pilot logbook is? identification.) 4 A. Yes. 5 (Discussion off the record.) 5 Q. And you do not keep a pilot log? MR. TURNER: As I understand it the court 6 6 A. I used to have it before I became captain. reporter has marked the 2004 current version as 7 7 CHECK INTERPRETER: I used to keep it before I Exhibit 8 and the 1999 version as Exhibit 9. 8 8 became captain. MR. TORPEY: Q. Mr. Nishiguchi, look at 9 9 Exhibit 2, the second page of that in the middle it says 10 MR. TORPEY: Q. Why did you stop keeping it 10 taxi, and under that it says the captain shall perform 11 when you became a captain? 11 A. The company computer does that sort of thing 12 taxi in accordance with the following. And it gives 12 13 some specifics that the captain has to perform during now. 13 14 Q. Do you still have possession of your logbook 14 taxi. 15 from when you were flying before you were a captain? To your knowledge, was that a direction in the 15 16 A. It is not clear. operations manual back on October 7, 2003, as well? 16 Q. Would you have given it to ANA, or is that 17 A. I do not have a clear recollection. 17 something that you have personally? Q. I want to back up a step. Before you became a 18 18 A. I have not given it. If I searched my house, captain in 2004, were you also logging about 70 hours a 19 19 20 it may come out. month in the 777? 20

5 (Pages 14 to 17)

Q. Okay. You have no reason to throw it away, I

Q. Mr. Nishiguchi, when you were a first officer

before 2004, can you tell me about how many times you

- Q. I believe that is specific. I'm asking you to tell me what in your mind you formed as an opinion of the causes of the collision.
- A. There were many factors involved in the circumstance at that time such as the ATC.
 - Q. What else beyond ATC?
- A. There are various factors, so I cannot think of them at this time.
- Q. When you talk about ATC, you're talking about ground control?

CHECK INTERPRETER: The witness asked to have the question repeated, and the lead interpreter complied.

MR. TORPEY: So where are we? THE WITNESS: There are various --THE INTERPRETER: I need to. MR. TORPEY: No problem.

THE WITNESS: For example, there is the control tower or there's ground control, so there are many factors to ATC.

MR. TORPEY: Q. Are you referring to ATC to include ramp control tower?

- A. Yes.
- Q. And do you understand the ramp control tower was, at San Francisco, operated by United Airlines?

Page 28

this entire line of questioning had to do with your personal opinions as to the cause or causes, and you 2 3 indicated that you personally have come to the 4 conclusion that you believe that ramp control was a 5 cause of this collision.

So I'm only asking for what you believe, you personally, as the flying pilot on October 7, 2003, what you personally believe the ramp control did or did not do that caused this collision.

MR. TURNER: Objection as to form and foundation.

THE WITNESS: I do not say that ramp control was the cause, that it was one of the causes.

CHECK INTERPRETER: That it was the sole cause.

MR. TORPEY: Q. I'll try again.

Mr. Nishiguchi, I am not asking whether they were the sole cause. I'm asking you to tell me now what you believe ramp control did or did not do that contributed to the cause of the collision. For example, let me ask you -- translate that, and then I'll add to the question.

For example, as the flying pilot, from the time your aircraft taxied from the engine-start line to the point of impact, did you rely on ramp control to

- Q. You don't know one way or the other? 2
- 3 A. Right.
 - O. But you do believe that the ramp control on October 7, 2003, was at least one of the causes for the collision; correct?
- 6 7 I believe there was also the problem of the entire ATC problem of the ramp control. 8
 - Q. But you do believe that ramp control was one of the causes of this collision; am I correct?
 - A. Yes.
- Q. And how is it that ramp control in your mind 12 contributed to the cause of this collision? 13
- A. I myself do not know the cause itself. I 14 believe there are various factors. 15
 - Q. What I'm asking, Mr. Nishiguchi, is you believe that United -- strike that.

You believe that ramp control was a cause. 18 What in your mind did ramp control do or not do that you 19 believe contributed to the cause of the collision? 20

- A. This is not my opinion, but according to the 21 ANA investigation, a view was reached that two aircrafts 22 could not push back and taxi irrespectively at the same 23 24 time at that location.
 - O. Mr. Nishiguchi, I've asked though for your --

Page 29

provide proper clearances and instructions for taxi? THE INTERPRETER: Can you read it back for me. MR. TURNER: Just so I don't interrupt,

objection as to form and foundation.

THE WITNESS: Yes.

MR. TORPEY: Q. And as the flying pilot on October 7, 2003, did you also rely on ramp control to issue traffic advisories and safety alerts to you?

- A. We did receive taxi clearance.
- Q. My question, sir, is, as the flying pilot, did you rely on ramp control to issue to you traffic advisories and safety alerts, for example, warning or alert that there was another aircraft potentially in your taxi path?
 - A. I was relying on ramp control and ATC.
- Q. So you agree with me that you relied on ramp control, at least as one of two individuals, to provide traffic advisories and safety alerts?

CHECK INTERPRETER: Advisory though is for example, it's a warning -- the lead interpreter is translating advisory as information. That's not necessarily correct.

MR. TORPEY: Q. It's really pretty simple. Mr. Nishiguchi, do you believe, sir, that you relied as the flying pilot upon ramp control and perhaps

others, to warn you of the potential collision hazard with the United aircraft on October 7 of 2003?

- A. I don't know about warning, but I believe that it is the duty of the pilot to follow the instructions given by ATC including ramp control.
 - Q. I'm going to move to strike that answer.

Mr. Nishiquchi, please listen carefully to my question. I did not ask you about that. I asked you simply -- I'll just have the court reporter read back the question, and I'd like you to listen carefully and answer the question that I asked, please.

(Record read by the reporter.)

THE WITNESS: I do not know what you mean when you say warn -- quote, warn you, close quote because it is the duty of the pilot to follow the clearance.

MR. TORPEY: Q. Is it your position as the flying pilot that the ramp control gave you clearance to taxi and you relied on that clearance and that clearance was an assurance, an assurance, to you by the ramp controller that no collision would occur?

- A. We followed the clearance to taxi; but I do not know what you mean when you say assured by such and such.
- Q. Did you rely on ramp control as the flying pilot in getting clearance from ramp control -- strike

the clearance.

- Q. What does the word guarantee mean to you? What does that word mean, sir?
- A. A guarantee, it's like an insurance, but then I do not know what the meaning is really. I don't know what that would mean in the aviation world.

Page 32

Page 33

MR. TORPEY: I'd ask the interpreter if there is a word in Japanese that is the same as the English word assurance.

THE INTERPRETER: Yes. And she would use the Japanese word hosho.

MR. TORPEY: O. And what does that mean in Japanese?

A. It means to guarantee.

CHECK INTERPRETER: H-o-s-h-o.

MR. TORPEY: Q. Mr. Nishiguchi, was the clearance that was issued by ramp control to you as the flying pilot a guarantee that you would not have a collision with another aircraft if you followed that clearance?

- A. I believe that it was an instruction or permission to taxi including all those things including collision.
- Q. And so you relied on that clearance as the flying pilot on October 7 of '03; correct?

Page 31

that.

Let me rephrase it. As the flying pilot receiving clearance from ramp control to taxi, do you rely on that to mean that there will be no possibility of a collision hazard between yourself and another aircraft if you follow that clearance?

A. I believed that in general if one can get --THE INTERPRETER: The interpreter will restate.

THE WITNESS: I believe that in general if one followed the air traffic control system, one could get clearance.

MR. TORPEY: Q. I'll move to strike that answer.

Mr. Nishiguchi, we are not talking about whether or not you got clearance. We understand that you got clearance, and I'll ask for the last time this auestion.

And that is, did you rely on that clearance from ramp control as an assurance to you as the flying pilot that you would not collide with another aircraft if you followed that clearance? That's the question, sir.

A. I do not know what you mean when you say assure. We received clearance, so we simply followed

MR, TURNER: Objection as to form. 1

THE WITNESS: I did not rely. I followed the taxi clearance.

CHECK INTERPRETER: Instruction. The check interpreter stands corrected. There was no instruction.

5 6 MR. TORPEY: Q. What does the word rely mean 7 to you, sir?

- A. I don't know what that would mean in the aviation world. What other word would there be?
- Q. As the flying pilot of the ANA aircraft that day, Mr. Nishiguchi, did you follow the clearance instructions from ramp control?

That's it. Did you follow?

- Q. And do you believe following ramp control's instructions was at least one of the contributing factors in causing the collision on October 7 of 2003?
- A. Can you change -- can you ask me that question in other way.
- Q. I think that question is very direct, sir, and 20 I'd like an answer to that question exactly as it's 21 22 asked.

MR. TURNER: Objection as to form.

THE WITNESS: Then can I have the question 24 25

again.

	Page 34		Page 36
1	MR. TORPEY: Certainly. Read it back in	1	English to us.
2	English and in Japanese, please.	2	THE INTERPRETER: I might as well have the
3	(Record read by the reporter.)	3	English version.
4	THE WITNESS: If we had not taxied, there	4	MR. TORPEY: Let me do this. I know. Here's
5	would not have been a collision, so I believe that is	5	what we can do.
6	one of the contributing factors.	6	MR. TORPEY: Q. Mr. Nishiguchi, having read
7	CHECK INTERPRETER: In that sense.	7	Exhibit 9, would you now look at Exhibit 2 and at the
8	MR. TORPEY: Q. And the communication	8	second page where it says in English, number 2, taxiing,
9	between strike that.	9	and it has subparts 1 through 5, is the very first
10	The way your aircraft received the clearance	10	sentence in Exhibit 2 where it says, the captain shall
11	that we have been discussing from ramp control was by	11	perform taxi in accordance with the following.
12	way of flight deck to ramp control communications; is	12	Does that language appear in Exhibit 9 as
13	that correct, sir?	13	well?
14	A. The clearance is received through the radio	14	A. No.
15	communication of the aircraft.	15	Q. What does the first line and again, maybe
16	Q. With ramp control; correct?	16	Satoe, could you read us the first line of Exhibit 9
17	A. All ATC including ramp control.	17	after number 2.
18	MR. TURNER: We've been going for well over an	18	THE INTERPRETER: In Japanese?
19	hour and a half now.	19	MR. TORPEY: Well, it's in Japanese. Can you
20	MR. TORPEY: We can take a break.	20	translate to English.
21	MR. TURNER: Let's take a break.	21	MR. TURNER: You mean the word next to the 2
22	THE VIDEOGRAPHER: This concludes Videotape 1	22	in circle or the line below?
23	in the deposition of Yusuke Nishiguchi. The time on the	23	MR. TORPEY: That and the line below.
24	monitor is 11:34 a.m.	24	MR. TURNER: Okay.
25	(Recess taken.)	25	THE INTERPRETER: It says the time of the
	Page 35		Page 37
t		l .	

THE VIDEOGRAPHER: Here begins Videotape 2 of the deposition of Yusuke Nishiguchi. Coming back on the record. The time on the monitor is 11:48 a.m. Please begin.

MR. TORPEY: Q. Mr. Nishiguchi, look at Exhibit 8 that you have in front of you please, sir. And look at the second page -- strike that. I apologize. I'm sorry.

Look at Exhibit 9. I keep forgetting there's two exhibits there. They really shouldn't even be paper-clipped together.

Exhibit 9, which is an ops manual page with the date of 1999, apparently November of '99. If you look under item 2 and since this document is entirely in Japanese, obviously I can't read it, but can you read to me what it says at item 2, and then the subitems 1, 2 and 3 below it.

MR. TURNER: You're referring to the 2 that is in the circle as opposed to in the parentheses or outside of them?

MR. TORPEY: Exactly.

MR. TURNER: The 2 that's in the circle.

23 THE WITNESS: Yes, I read them.

MR. TORPEY: Would you read -- maybe the easiest thing to do is, Satoe, could you read those in

beginning of the powered run. So there's something Ineed to confirm with him.

We have just discovered that the format is different in Japanese than English. In the English version, taxi starts with 2 in a circle and it's just that. But in the Japanese version, taxi includes both 2 in a circle 3 in a circle. It's longer.

MR. TORPEY: So there's actually more taxing instructions in Exhibit 9 than in Exhibit 2; am I correct?

THE INTERPRETER: The witness says he doesn't know.

MR. TORPEY: Q. Why don't we do this. I don't want to take a lot of time on this, but would you -- in fact, let's do this. Would you find for me in Exhibit 9, wherever it is on Exhibit 9, the language that's contained in Exhibit 2 that says, the captain shall perform taxi in accordance with the following?

A. There is no such statement in Exhibit 9.

Q. Look at Exhibit 8. Is that statement in Exhibit 8 anywhere?

22 A. No.

Q. Going back to Exhibit 2 under item 2, taxi, subpart 2 it says, be observant of all obstacles around him and taxi speed is such that he may bring his

	Page 38		Page 40
1	airplane to an immediate and complete stop.	1	THE WITNESS: That is a hypothetical question,
2	Is that language contained anywhere on	2	so I cannot answer.
3	Exhibit 8 or 9?	3	MR. TORPEY: Q. With all due respect, I do
4	A. Yés. Yes. Although the term captain isn't	4	want you to answer, and I want you to answer my
5	included.	5	hypothetical. It is a hypothetical, and I would like
6	Q. Okay. Look at that same Exhibit 2	6	you to answer it, please.
7	or strike that.	7	MR. TURNER: Objection as to form and
8	I'm looking at Exhibit 2 under item 2, taxi,	8	foundation and incomplete hypothetical.
9	at subpart 5 which says, ask for a signalman's	9	THE WITNESS: Well, we are looking at the 2007
10	assistance in the event that there's any obstacle in the	10	version of the operations manual, so I do not know if
11	vicinity of the ramp area.	11	these subitems were included at that time.
12	Is that language in Exhibits 8 and/or 9?	12	MR. TORPEY: Q. I'm not asking you whether
13	A. Yes.	13	you knew, Mr. Nishiguchi. I'm telling you, assume they
ı	Q. And on October 7, 2003, was Exhibit 9 the	14	were.
14	current version of the ops manual that you were required	15	MR. TURNER: Same
15	to follow in operating your aircraft that day as the	16	MR. TORPEY: Q. And if they were included,
16		17	you as the flying pilot on October 7, 2003, were
17	flying pilot?	18	required to follow those instructions; correct?
18	A. I do not know.	19	MR. TURNER: Objection as to form and
19	Q. Assuming that it was or assuming that a later	20	incomplete hypothetical.
20	version still had those two provisions in it, you were	21	THE WITNESS: I would follow the operations
21	required to follow those directions when you were the		manual, but since I don't know what the content is, I
22	flying pilot on October 7 of 2003?	22	
23	MR. TURNER: Objection as to form and	23	cannot answer.
24	foundation.	24	MR. TORPEY: Q. Okay. Fair enough.
25	THE WITNESS: No. That is not correct.	25	Why is there an English and a Japanese version
	Page 39		Page 41
1	Q. So even if the ops manual that was in effect	1	of the ops manual?
2	on October 7, 2003, contained the language that is	2	A. I do not know.
3	marked at item 2, subparts 2 and 5 of Exhibit 2, your	3	Q. Do you keep the English or the Japanese
4	position is you could disregard those instructions as	4	version or both in the aircraft?
5	the flying pilot?	5	 A. It is not clear. There was the Japanese

- Q. Do you understand as a captain or as a previous copilot of an ANA aircraft, that if your aircraft had taxied and collided with another aircraft, that could cause a safety issue?
 - A. If there is a collision, it is not safe.
- Q. As a flying pilot for ANA, Mr. Nishiguchi, if you believed that while taxiing your aircraft was going to collide with another aircraft, would you stop that aircraft, your aircraft, before colliding?
 - A. Oh, well, yes, I would.
- Q. Because colliding with another aircraft while taxiing can have safety concerns, would you also stop your aircraft if you did not know for sure whether or not you were going to have a collision with another aircraft while taxiing?

MR. TURNER: Objection as to form and incomplete hypothetical.

THE WITNESS: The question was long, and I don't understand it.

MR. TORPEY: Read it back please in English and in Japanese.

(Record read by the reporter.)

Page 44 777 and you are also the flying pilot. I want you to

also assume that you perceive that you could run into another aircraft as you are taxling.

If you don't know for sure whether or not you can avoid hitting that aircraft, would you, A, stop until you know whether or not you can clear it or, B, keep going and hope you clear it but you may not?

MR. TURNER: Objection as to form, foundation 10 and incomplete hypothetical.

Which would you do, A or B?

THE WITNESS: The question is long, and I don't understand it. And when you say could run into, what sort of situation is that?

MR. TORPEY: Q. Mr. Nishiguchi, it doesn't matter what the situation is. I'm talking to you about running into another aircraft. I don't care if you run into it from the front, the back, the side or upside down.

Let me withdraw the question. I'll withdraw the question.

Do you have family, sir? 21

- A. I am married. 22
 - O. Children?
- A. I do not have children. 24
 - Okay. Well, let me ask you, if your wife was

Page 43

THE WITNESS: I don't know.

MR. TORPEY: Q. So even if you are not sure whether or not you're going to collide with another aircraft during taxi, you as the pilot flying would consider continuing taxi rather than stop before you knew whether or not you were going to hit the other aircraft?

Is that what your testimony is to the jury, sir?

MR. TURNER: Objection as to form, foundation, and incomplete hypothetical.

THE WITNESS: I do not understand the real intent of the question.

MR. TORPEY: Q. Well, with all due respect, Mr. Nishiguchi, I'm not asking you to understand the intent. I would just like you to answer the question.

And the reason I'm saying that is, when the jury at the time of trial hears your answer, I want to make sure that I've gotten it from you the way you intended, so there's no misunderstanding.

MR. TURNER: Objection to your comment and the question, form and foundation and incomplete hypothetical.

MR. TORPEY: Q. Mr. Nishiguchi, I want you to assume hypothetically that you are the copilot of an ANA

on an aircraft and that aircraft was taxiing at 1 San Francisco Airport and the pilot flying that 2 aircraft -- another aircraft that he potentially could 3 run into during the taxi. 4

MR. TORPEY: Translate that, and I'll finish.

Q. Would you want the pilot of that aircraft carrying your wife to, A, stop the aircraft until the pilot knows for sure he is not going to run into the other aircraft or, B, keep taxiing not knowing whether or not there would be a collision?

MR. TURNER: Objection as to form, foundation, and incomplete hypothetical.

THE WITNESS: And where am I in that question? MR. TORPEY: Q. Doesn't matter where you are, Mr. Nishiquchi. I'm giving you a hypothetical. You are now aware of the information I just provided you. Which of those two decisions would you want the pilot of that aircraft to make? Choice A or choice B?

MR. TURNER: Objection as to form, foundation and incomplete hypothetical.

THE WITNESS: At least I would want him to choose safety.

MR. TORPEY: Q. So you would prefer that he stop the aircraft if there's any question about whether he may or may not run into the other aircraft; correct?

MR. TURNER: Objection as to form, foundation and incomplete hypothetical.

THE WITNESS: I do not say that. If it is safe, if there's no collision --

THE INTERPRETER: The interpreter will restate.

THE WITNESS: I did not say this. I said that it would be good if it is safe and if there is no

MR. TORPEY: Q. You said that you want the pilot to choose safety for your wife. As a pilot yourself, Mr. Nishiguchi, do you think it would be a safe choice to continue taxiing an aircraft if you did not know for sure whether or not you were going to collide with another aircraft during that taxi?

MR. TURNER: Objection as to form and incomplete hypothetical.

THE WITNESS: I do not understand the situation very well, so I could not answer.

MR. TORPEY: I'll move to strike that, and I believe that was unresponsive. And I also note for the record that the witness seems to be following a pattern with counsel that when counsel objects, the witness does not provide us substantive answer.

MR. TURNER: I object to your comment, and

Page 48

MR. TORPEY: Satoe, what is the Japanese word synonomous with protocol?

THE INTERPRETER: I translated it as procedure.

MR. TORPEY: Q. Are you going to answer, sir? I don't know that I quite understand the

question. I vaguely understand it, but I'm not clear about the situation.

Q. Mr. Nishiquchi, with all due respect, sir, the question was very clear. I will ask that it be read back one more time, and then I'm going to play this to the jury if need be and let that jury see that as your answer.

I think it's very direct, and I'm going, in fairness, to give you one final opportunity to consider the question and to give me your most truthful answer that you will also give to that question in front of the jury that hears this case.

MR. TURNER: I just want the witness not to be fooled by Mr. Torpey into believing Mr. Torpey has the ability to play anything to the jury. The judge will determine what is played to the jury and what is not played to the jury, not Mr. Torpey.

Please translate that.

MR. TORPEY: Why don't you read back the

Page 47

when counsel for ANA objects, he's objecting because your questions are poor questions and improper.

MR. TORPEY: Q. As a pilot for ANA, do you have an obligation to provide the utmost in safety to ANA customers and passengers when you're piloting that aircraft?

A. Yes.

Q. In your opinion as a now captain for ANA, Mr. Nishiguchi, is it safer for the passengers on ANA aircrafts to have you continue taxiing your aircraft when you don't know whether or not you're going to run into another aircraft, or is it safer for you to stop your aircraft until you can determine that you will, in fact, clear the other aircraft?

MR. TURNER: Objection as to form, foundation, incomplete hypothetical. And you're just repeating your questions, and you're just arguing with the witness. I really object to the whole process.

THE WITNESS: I have said this repeatedly, but I cannot answer that question as to which is better.

MR. TORPEY: Q. Do you have a protocol, Mr. Nishiguchi, that you follow when you see a potential collision hazard with another aircraft while taxiing on the ground?

A. What do you mean by protocol?

Page 49 question in English, and then ask him to answer it. (Record not read by the reporter.)

THE WITNESS: There are all kinds of situations, so I cannot answer the question.

MR. TORPEY: Q. I'll move to strike the answer as nonresponsive, and since you will not answer that question, I'll have to ask something different.

Mr. Nishiguchi, I want you to assume you are the pilot flying an aircraft for ANA and that you're taxiing. Do you understand the question so far?

Q. Second, I want you to assume that you've been given clearance to taxi for takeoff. You understand the question so far?

A. Yes.

Third, I want you to assume that you now learn after having been cleared to taxi that another aircraft is on short final to land on that same --

MR. WORTHE: You said taxi. You mean takeoff. MR. TORPEY: Takeoff. Excuse me. Let me rephrase it.

Q. I want you to assume that another aircraft is on short final to land on that same runway that you've already been cleared to take off on.

Do you understand the question so far?

Yusuke Nishiguchi

Page 50

MR. TURNER: I'd like to object. Please start over. I don't know what you were withdrawing and not withdrawing. I'm sorry.

MR. TORPEY: I'll start over.

- Q. Mr. Nishiguchi, I want you to assume that you are the flying pilot and pilot in command of an ANA 777 at San Francisco Airport.
 - A. Yes.
- Q. You understand the question so far?
- 10 A. Yes.

- Q. Next I want you to also assume that you've received clearance from air traffic control onto the active runway for takeoff?
- A. Yes.
 - Q. And you understand my question so far?
- 16 A. Yes.
 - Q. Next I want to have you assume that you learn now that even though you're cleared to take off, you learn that another aircraft is on short final to land on that same runway you have been cleared onto.
 - A. What do you mean by short final to land?
 - Q. Assume that the other aircraft has been cleared to land and is in the process, is in final approach, to land on the same taxiway that you've been cleared to take off on?

runway, or, B, would you take some other action such as contacting air traffic control to determine whether there could be a collision hazard if you taxied onto the runway?

Page 52

Page 53

MR. TURNER: Objection as to form, foundation and incomplete hypothetical.

THE WITNESS: One question, please. If the runway -- if one enters the runway, then you cannot see the aircraft.

MR. TORPEY: Q. Mr. Nishiguchi, I did not ask you that, and I asked you to assume what I said to be true and give me an answer based on that. I'll give you one more opportunity, and then I'm not going to ask that question again. And it's obvious that you are not going to answer that or any other questions like that on this topic.

MR. TURNER: Objection as to form, foundation, incomplete hypothetical and counsel's comments.

MR. TORPEY: Q. Mr. Nishiguchi, here's what I'm going to do. I'm going to ask that the question be read back in English and in Japanese. I want you to assume what I said to be the case. I do not want you to include any other information.

I want you to give me your answer based solely and exclusively — and I repeat, solely and

Page 51

MR. WORTHE: Runway.

MR. TORPEY: Excuse me. Runway. I keep missing the word.

THE WITNESS: But the controller does not give clearances to two aircraft at the same time.

MR. TORPEY: Q. Mr. Nishiguchi, I want you to assume my question is true and accurate as given. I don't want you to introduce new facts. I want you to accept my hypothetical as is, and based on that, I want your opinion.

A. Yes.

Q. So let me restate the question, and based on what I am telling you, I want you to assume it to be true, and then I'm going to ask you a question hypothetically.

First, I want you to assume that you have been cleared onto an active runway to take off at San Francisco Airport and that you are the pilot in command and flying pilot.

Second, I want you to assume as true that after you have been cleared onto the active runway for takeoff and before you have taken off, another aircraft is cleared to land on that same runway.

In that situation, Mr. Nishiguchi, what would you do? Would you, A, continue taxiing onto the active

exclusively -- on what I gave you as the hypothetical. That, sir, is the question before you.

(Record read by the reporter.)

THE WITNESS: I already understand the question. In answering that question, I would take action based on my consideration of what the weight of my own aircraft is. I would also have to know the altitude, the distance of that other aircraft and also I would have to know about the wind factor. With all these factors considered, if I believe that I have enough time to take off, then I would do so.

MR. TORPEY: Q. And if you did not think you had enough time or you weren't sure, then you would not do so; correct?

MR. TURNER: Objection as to form and foundation.

THE WITNESS: So it's hard for me to answer unless I know all the conditions.

MR. TORPEY: Move to strike that. Read backmy question.

Q. And I'd ask you, Mr. Nishiguchi, to respond to my question, please.

MR. TURNER: Objection as to form and foundation.

(Record read by the reporter.)

Page 54
THE WITNESS: I would need to make an overall consideration based on the distance and the altitude of that other aircraft. Since I'm not in that situation now, I really cannot answer.

MR. TORPEY: Q. But you can answer. You won't answer. And there's a difference.

MR. TURNER: You're just arguing with the witness. Why don't you move on.

MR. TORPEY: I'm not going to move on. He's being evasive, and I'm going to continue to question him to a point to make this record. He has already --

I'm not going to argue with you, Marshall.

Q. Mr. Nishiguchi, I want you to make a determination. The question is if you don't know, having — strike that.

You've told me what factors you would consider in making the decision in response to my hypothetical. I have, however, now asked you if you did not know that, in fact, you could take off before the other aircraft was to land, would you continue to taxi onto the active runway, or would you take some other action such as stopping and making sure that you could proceed safely with no collision?

MR. TURNER: Objection as to form, foundation and incomplete hypothetical.

Q. Mr. Nishiguchi, if you thought as the pilot in command of an aircraft you were going to run into another aircraft, would you stop?

MR. TURNER: Objection as to form and incomplete hypothetical.

THE WITNESS: I cannot answer because I don't know what the situation is. You say collision, but if it is right in front, then anybody would stop.

Page 56

MR. TORPEY: Q. Let's end this discussion with this, Mr. Nishiguchi. If you did not know whether or not you were going to run into another aircraft while taxiing and while you were the flying pilot and pilot in command -- you understand me so far, sir?

A. Yes. Yes. Okay.

Q. Would you stop or would you go?

MR. TURNER: Objection as to form and incomplete hypothetical.

THE WITNESS: I already answered that question.

MR. TORPEY: Q. And that's your final answer, right, sir?

A. That would be my answer to hypothetical questions the conditions of which are incomplete.

Q. Well, I won't ask you any more questions about conflict resolution, and I will move to strike your

Page 55

THE WITNESS: I would have to make a judgment based on all kinds of — or overall considerations including the weather, so I cannot say at this point.

MR. TORPEY: Move to strike and we'll take that up with the court.

Q. Since you won't answer that, Mr. Nishiguchi, let me change to another question. And that is if you were the flying pilot taxiing and you noticed a potential collision with another aircraft, would you stop your aircraft?

11 MR. TURNER: Objection as to form and 12 incomplete hypothetical.

THE WITNESS: If there is a collision, of course, I would stop.

MR. TORPEY: Q. And if there's no collision, you would not stop?

A. There are all kinds of situations. Distance would be a factor. I don't understand what the situation is in that question, so I cannot answer.

Q. Again, we'll move to strike.

Mr. Nishiguchi, have you been told not to answer hypothetical questions?

A. No. It is not possible for me to answer because the conditions set forth in the hypothetical questions are too limited.

Page 57 answers, and we'll take that up with the court at

another time.

After the impact, Mr. Nishiguchi, what did you

do?

A. I stopped the aircraft.

Q. How did you do that?

A. I used the brakes.

Q. Did you make an emergency stop or a normal stop?

A. It wasn't an emergency stop, but the aircraft stopped immediately.

Q. Do you know how many seconds it took, or would you just be guessing?

A. I could not know.

Q. Do you know how many feet it took to bring the aircraft to a stop, or would you just be guessing?

A. I do not know.

Q. You never went you said to the aircraft and looked around on the ramp area after the impact; am I correct?

A. After the impact, I was onboard.

Q. You did not get off the aircraft until it was towed back to the terminal, and you walked down the jetway; correct?

25 A. Yes, I believe so.

	Page 58		Page 60

23

24

25

to the spot 10? And specifically I'm asking for your

recollection if you have one for the taxi on October 7,

Yusuke Nishiguchi

Page 64 Page 62 2003. MR. TORPEY: I can rephrase it. 1 1 Q. On October 7, 2003, as the flying pilot, were 2 I can't see the nosewheel, so I don't know. 2 Q. Okay. Do you have any procedure that you you performing any checklists on or after you left the 3 3 follow with regard to when you taxi trying to keep the 4 engine-start line at San Francisco? 4 5 nosewheel or the nose of the aircraft directly on the 5 A. There is a checklist, but as far as they are 6 centerline? 6 performed before takeoff, it is fine. So I do not 7 A. Yes. 7 recall if I was performing them at that time. 8 Q. What is the procedure? 8 Q. Was there a flight attendant in the cockpit at 9 any time prior to the taxi on October 7, 2003? 9 A. If I am at the right seat, then I would have And then we'll take a break. 10 my left leg on the -- on the or above the centerline. 10 11 If I do that, then the aircraft would be traveling along A. No. 11 MR. TORPEY: Okay. We can take a lunch break. 12 the middle. 12 How long you want to break for? 13 Q. And even though you can't see the nosewheel, 13 you would assume that the nosewheel would be on or very, 14 MR. TURNER: We'll see you in an hour. What 14 15 very closely to the yellow line if you follow that 15 is the time? procedure; correct? THE VIDEOGRAPHER: Going off the record. The 16 16 A. Yes. time on the monitor is 1:07 p.m. 17 17 18 O. And as far as the main gear, which is the two (Lunch recess taken.) 18 sets of wheels underneath the wings of the aircraft, if THE VIDEOGRAPHER: Coming back on the record. 19 19 The time on the monitor is 2:06 p.m. Please begin. 20 you have the nose positioned on the centerline, then the 20 MR. TORPEY: Q. Mr. Nishiguchi, if you look 21 centerline would be approximately in the middle between 21 the left and the right main gear; correct? 22 at what was marked yesterday as Exhibit 5, recon photo 1 22 that we have displayed here on the board, or you can 23 A. Yes. 23 Q. Okay. What's the purpose of the centerline look at the copy your counsel has just shown you, 24 24 25 that we see in this photograph and the reason why you 25 whichever is more convenient for you. Page 65 Page 63 want to have your aircraft positioned so it's following You can see that there is an aircraft at the 1 1 2 the centerline as you just described? 2 engine-start area, and up towards the upper portion of MR. TURNER: Objection as to form. 3 that photograph is an area where it says spot 10. 3 THE WITNESS: In order not to stick out from 4 4 Do you see that? 5 A. Yes. 5 the taxiway. Q. And you'll see a line drawing from the front 6 MR. TORPEY: Q. What do you mean by not stick 6 7 out from the taxiway? of the airplane all the way up to where spot 10 is. Do A. We are aware that there are the edges of the 8 8 you see that? 9 taxiway, but if there is no centerline, then an aircraft 9 A. Yes. 10 may turn to -- may -- may veer somewhat to either side. 10 Q. Is that called the centerline of the taxiway or ramp area? O. Is the purpose for your following the 11 11 centerline with the nose of the aircraft to keep the A. Yes. 12 12 wings of that aircraft from penetrating beyond the 13 Q. And you as the flying pilot on October 7, 13 14 2003, were you keeping the nose tire of your aircraft on 14 taxiway itself? A. I think that is one of the reasons also. that centerline? 15 15 Q. Okay. And if you look at this photo, for A. It wasn't the nose tire. I was operating the 16 16 aircraft so that the main landing gear would straddle 17 example, can you see a line to the right and to the left 17 18 of the aircraft wing tips? the white line. 18 A. Do you mean this line of this aircraft? Q. In the photograph, this is the line that 19 19 you're referring to; correct? 20 O. This line right here. 20 21 A. Yes. I can see it. 21 A. Yes. Q. And where would the nosewheel be positioned as 22 Q. And a similar line here. Do you see that? 22 you were taxiing the aircraft from the engine-start line 23 A. Yes.

Q. Am I correct that the width of the taxiway in

this photo extends from this line to that line; is that

24

Page 68 Page 66 1 could create a collision hazard between the aircraft and correct? 1 2 another object or vehicle? 2 A. It is hard to tell. 3 A. I think that is one of the reasons too. Q. In your experience, flying into San Francisco 3 4 Q. Do you recall -- and don't guess if you don't Airport, is there a line on either side of the taxiway 4 5 recall -- but if you do recall, do you that demarks the distance of the taxiway, in other 5 6 remember -- strike that. 6 words, the width? Let me show you what was marked yesterday as 7 7 A. There are lines. 8 Q. And I know that it's not real bright in this 8 Exhibit 6 and ask if you've seen that before. photo, but if you look at this line to the left, excuse 9 A. No. 9 10 Q. If you'll take a look -- let me back up. 10 me, to the right of the aircraft -- and it's probably I'll represent to you that Exhibit 6 is a clearer on the small picture you have there. You might 11 11 partial transcript of the cockpit voice recorder want to look at that -- if you go to the right of the 12 12 line I just pointed to, is that a service vehicle line? 13 prepared by ANA and submitted to the NTSB as part of 13 14 their investigation materials submitted to the NTSB. In other words, is that the lane where trucks and 14 15 Have you ever, by the way, Mr. Nishiguchi, 15 service vehicles drive at the airport? 16 ever listened to the cockpit voice recording after this 16 A. I think so. 17 accident? And if we look at the other side, to the left 17 A. No. 18 of the wing, would there again be a service road beyond 18 19 MR. TURNER: I just want to make a comment the edge of the taxiway? 19 that I am not sure that Mr. Torpey's representation is 20 20 A. I can't tell just on the basis of this accurate. In fact, I don't think it's accurate, but 21 photograph. 21 he's making that representation here. O. Do you have a recollection of whether there is 22 22 It's his question, but I want the witness to a service lane on the left in that area? 23 23 A. I do not recall. 24 know that I do not necessarily agree with his statement. 24 25 This is a transcript of the cockpit voice recording 25 Q. You don't know one way or the other? Page 67 Page 69 1 prepared by ANA. A. I don't know. 1 MR. TORPEY: Well, that's a speaking objection 2 Q. Okay. Now, if you were to -- strike that. 2 If you were taxiing the aircraft along the 3 and that's not proper, and I'd ask you not to do that 3 centerline, is there any reason why you would want to 4 again. 4 5 Before we continue, Counsel, can we have an 5 deviate from the centerline before reaching spot 10? 6 agreement that all objections whether to form, MR. TURNER: Objection as to form and 6 foundation and incomplete hypothetical. 7 foundation or anything else are preserved so that you 7 8 don't have to interrupt my cross-examination of this or MR. TORPEY: Q. Take your time. That's okay. 8 9 A. You ask me if there's any reason, but in the the witness tomorrow. 9 world of space it is sometimes difficult to always keep 10 MR. TURNER: We have federal rules that all 10 objections except as to form are reserved to the time of on the centerline, so at times there could be an 11 11 trial, and I'll make my objections as to form. But this 12 intentional shift from the centerline, or there could be 12 13 was not an objection to the question. This was an an unnoticed shift. 13 14 objection to your misrepresentation. Q. Have you ever had an occasion to make an 14 MR. TORPEY: I'm asking you whether you'll 15 15 intentional shift while taxiing from the engine-start line, along this line, in other words, intentionally not 16 stipulate that we can preserve all objections including 16 17 form and foundation so that you won't have to raise them 17 following the centerline? 18 any further in this deposition or the deposition 18 MR. TURNER: Are you specifically referring to San Francisco International or just in general? 19 tomorrow. 19 MR. TORPEY: Well, let me rephrase it. 20 MR. TURNER: We'll see as we go along. 20 MR. TORPEY: I need the stipulation now or say Q. I'll put it this way. Do you agree with me, 21 21 Mr. Nishiguchi, that the reason that centerlines on 22 no. 22 23 MR. TURNER: No. taxiways are painted and the reasons why pilots are 23

24

25

taught and required to follow the centerline with the

center of their aircraft, is because failure to do so

24

25

MR. TORPEY: No. Okay.

Q. Mr. Nishiguchi, let me have you look at

		1	
	Page 70		Page 72
1	Exhibit 6, and you'll see in the center it says ramp com	1	between the start line and spot 10 you were when any of
2	time. Do you see that column?	2	the other communications took place, or do you not
3	A. Yes.	3	recall it at this point?
4	Q. It says there that at 11:53:51 through 57, it	4	MR. TURNER: Objection as to form.
5	says, Nippon 007, you are cleared to spot 10. Do you	5	THE WITNESS: I do not recall.
6	see that?	6	MR. TORPEY: Q. Mr. Nishiguchi, let me ask
7	A. Yes.	7	you, with regard to the did you ever see a transcript
8	Q. Now, you were not the communicating pilot;	8	of the cockpit voice recorder at any time?
9	correct?	9	A. No, I haven't.
10	A. No.	10	MR. TORPEY: Could I see that exhibit. Thank
11	Q. Were you paying attention to what was being	11	you.
12	said by the communicating pilot to ramp control or from	12	Q. Now, you said you were promoted to captain.
13	ramp control to the communicating pilot?	13	Is there a potential promotion to another level, and if
14	A. Yes.	14	so, what would be the next level for you?
15	Q. Was there some type of a speaker, if you will,	15	A. I don't think there is any.
16	in the cockpit so that even though you weren't the	16	Q. Let me show you another photograph. In fact,
17	communicating pilot, you could hear the transmissions	17	let's mark it. I don't think it's been marked.
18	from ramp control to your flight deck?	18	Before we do that, do you remember as you were
19	A. Yes.	19	taxiing from the engine-start line, do you recall
20	Q. As you sit here today, do you have any	20	whether you were at all times looking outside the
21	recollection of any of the without looking at the	21	cockpit windows or for some reason would you
22	transcript that I've shown you do you have any	22	occasionally be looking down or somewhere other than
23	independent recollection of any communications, in other	23	looking outside during that taxi period on October 7 of
24	words, things that were said by ramp control to your	24	'03?
25	aircraft or your aircraft to ramp control, at any time	25	MR. TURNER: Objection as to form.

Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you
2 3 4 5 6 7 8	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to — we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that	2 3 4 5 6 7 8 9	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you recall if it was at the gate or had it been already
2 3 4 5 6 7 8 9	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that discussion at 11:53:51 through 57 took place, I take it	2 3 4 5 6 7 8 9 10	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you recall if it was at the gate or had it been already started to push back or do you recall at all?
2 3 4 5 6 7 8 9 10	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that discussion at 11:53:51 through 57 took place, I take it you don't really recall that either.	2 3 4 5 6 7 8 9 10	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you recall if it was at the gate or had it been already started to push back or do you recall at all? MR. TURNER: Objection as to form.
2 3 4 5 6 7 8 9 10 11 12	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that discussion at 11:53:51 through 57 took place, I take it you don't really recall that either. A. This took place when taxiing began.	2 3 4 5 6 7 8 9 10 11 12	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you recall if it was at the gate or had it been already started to push back or do you recall at all? MR. TURNER: Objection as to form. MR. TORPEY: Let me withdraw. Let me
2 3 4 5 6 7 8 9 10 11 12 13	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that discussion at 11:53:51 through 57 took place, I take it you don't really recall that either. A. This took place when taxiing began. Q. Okay. So would the area where the airplane is	2 3 4 5 6 7 8 9 10 11 12 13	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you recall if it was at the gate or had it been already started to push back or do you recall at all? MR. TURNER: Objection as to form. MR. TORPEY: Let me withdraw. Let me withdraw. I'll withdraw the question. Why don't we
2 3 4 5 6 7 8 9 10 11 12 13 14	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that discussion at 11:53:51 through 57 took place, I take it you don't really recall that either. A. This took place when taxiing began. Q. Okay. So would the area where the airplane is shown on Exhibit 5 be about the spot you're referring to	2 3 4 5 6 7 8 9 10 11 12 13 14	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Do you recall if it was at the gate or had it been already started to push back or do you recall at all? MR. TURNER: Objection as to form. MR. TORPEY: Let me withdraw. Let me withdraw. I'll withdraw the question. Why don't we mark this.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	prior to the impact? A. I recall you're cleared to spot 10. Q. Anything else that you recall other than that, or is that all you independently recall at this point? A. This is four years ago, so I have forgotten. Q. And with regard to we're looking at the aircraft here on Exhibit 5. With regard to where your airplane was, in other words, where it was between the start line and spot 10, where it was when that discussion at 11:53:51 through 57 took place, I take it you don't really recall that either. A. This took place when taxiing began. Q. Okay. So would the area where the airplane is shown on Exhibit 5 be about the spot you're referring to when that communication took place?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	THE WITNESS: I have forgotten. MR. TORPEY: Q. Okay. Fair enough. How tall are you, sir? A. 175 centimeters. Q. With regard to your strike that. Do you recall if on October 7, 2003, do you recall the very first moment that you saw the United aircraft that you ultimately collided with? Page 74 you what was marked as Exhibit 10 which we also have up on the screen. And if you look at the bottom of the photograph, it says ANA 001058. Do you see that?

You see next to the exhibit sticker, ANA? You see that?

A. Yes.

Q. Okay. Let me pull this back. That, Mr. Nishiguchi, is a photograph that was provided to us by counsel for ANA in what's called the Rule 26

And so you understand, sir, that is a document that was prepared not by us but provided by -- provided to us by ANA or at least their counsel. Do you understand that?

- A. Yes.
- 16 Q. And you see at the bottom of the photograph it says, figure 3, first possible direct line of sight from 17 18
 - A. Yes.
 - Q. Now, you see this line here, this black line?
- 21 A. Yes.
 - and this is United 809 on that same date strike that.

24 Let me start over. You see there's a line 25

disclosure.

UA 809. Do you see that?

Q. If this is your aircraft on October 7, 2003,

drawn between the cockpit of this aircraft, which is

United's view of your aircraft taxiing up along the centerline; correct?

- A. Well, since that isn't me, I don't know.
- Q. Okay. Well, looking at the photograph, does it appear from the photograph as the line is drawn that the crew of the United Airlines would be able to see past the tail and see your aircraft in that drawing?

Page 76

Page 77

A. I don't know.

Q. Well, let me do this. Let me do something that this picture also shows. Well, there's a line drawn from the cockpit of the United aircraft to the -or I should say from the tip of the United aircraft to the tip of your aircraft.

It would be fair to say that you really can't tell whether you or the United aircraft or either could see each another at that point because this green airplane is positioned at the gate in the middle between you; correct?

- A. Right.
- 20 Q. Let me ask you a different question. If we 21 were to draw a line from the cockpit, which would be 22 approximately -- this is approximately the cockpit in the ANA aircraft on this photograph true? About where 23 24 my pen is.
 - A. Yes.

Page 75

represented to be the ANA aircraft that you were the pilot of, and the United aircraft flight 809. You see that line?

- A. Rather than the cockpit it looks like the nose.
- Well, the cockpit is very close to the nose, Q. isn't it?
 - A. Yes.
- Q. If ANA's representation is correct that this is the location for the first possible direct line of sight from UA 809 to the nose of your aircraft, would you agree with me that it would also be the first possible direct line of sight from the nose of your aircraft to the nose of the United aircraft?
- A. This is just a line. Because of obstacles such as that green airplane in the middle, I'm not sure if it was the first time that it was possible to see the other aircraft.
- Q. All right. So that would apply both to United and to ANA; correct?
- Q. Okay. So in other words, if the United crew is here in the cockpit looking to their right, the tail of this parked green airplane that's in between the United aircraft and your aircraft could be blocking

Q. And this is the tail of the United aircraft; correct?

3 A. Yes.

> Q. And this is the wing structure from the United aircraft; correct?

- A. Yes.
- 7 Q. And this is the fuselage of the United 8 aircraft; correct?
 - A. Yes.
 - Q. And the vertical tail, there is a big fin that goes up vertically here; correct?
 - Now, even if you and/or the United crew cannot see each other in terms of the nose, if you are looking from your right-hand seat at the United aircraft, you would be able to see the tail and the wings of the United aircraft; correct?
 - A. I do not recall.
 - Q. Well, I'm not asking you if you recall at the moment. Let's do this. All right. Let's draw hypothetically a different line. If you draw a line --I don't want to cover that up. Okay. Let's say I draw a line from the nose of the ANA aircraft to the United aircraft. Do you see that?

MR. TURNER: Can I ask you, Mr. Torpey, have

	Yusuke N	lishig	juchi
	Page 78		Page 80
1	you done that on the marked exhibit?	1	representation as strike that.
2	MR. TORPEY: That is the marked exhibit,	2	Do you believe that if your aircraft was at
	correct.	3	the position that's reflected in this photograph and the
3	MR. TURNER: So let the record reflect that	4	United aircraft was at the position that's reflected in
4	Mr. Torpey has just drawn that line on the marked	5	this photograph, do you believe that you could
5	1	6	sitting in the right-hand seat of your aircraft, see the
6	Exhibit 10.	7	tail of the United aircraft?
7	MR. TORPEY: I think the video will reflect	8	A. I don't know.
8	that.	9	Q. Okay. Fair enough. Let me ask you let me
9	MR. TURNER: I'd like the transcript to		turn for a moment to something else.
10	reflect it.	10	With regard to I think we covered that.
11	MR. TORPEY: Q. You see the line that has	11	
12	been drawn approximately from the center to the forward	12	With regard to hang on. Excuse me. Let me show you
13	wing position of the cockpit of the ANA aircraft? Do	13	one other exhibit I don't think we marked.
14	you see that?	14	Now, during the taxi let's mark this.
15	A. Yes.	15	(Whereupon, Exhibit 11 was marked for
16	Q. Now, if you were seated in the right-hand seat	16	identification.)
17	of this aircraft, you should be able to see the wings of	17	MR. TORPEY: Q. Before we get into that, do
18	the United aircraft when your aircraft is at that	18	you recall whether the United aircraft when you first
19	position?	19	saw it while taxiing on October 7, 2003, was stopped or
20	A. That is not so.	20	was moving?
21	Q. And why not?	21	THE INTERPRETER: Can you give me that
22	A. The line may be there, but the actual	22	question, please.
23	situation would be different.	23	(Record read by the reporter.)
24	Q. What do you mean the actually situation would	24	THE WITNESS: I do not recall at this time.
25	be different?	25	MR. TORPEY: Q. Now, do you remember, if you
	Page 79		Page 81
1	A. There could have been other obstacles. On	1	recall, the last time you looked at the United aircraft
2	this photograph it would seem that it is possible to	2	prior to the impact, whether it was stopped or moving?
3	have that view along that black line, but, in fact,	3	A. It was moving. But we are moving to, so it is
4	there could have been other things.	4	hard to tell.
5	Q. Well, let's just assume that this photograph	5	 Q. But it was — the United aircraft definitely
6	produced by ANA accurately reflects the scene that	6	was moving; correct?
7	existed on October 7, 2003, when your aircraft was at	7	A. As I just said, we are moving too, but it
8	that position. Do you understand me so far?	8	looked like it was moving.
9	A. Yes.	9	Q. Did you ever strike that.
10	and the second s	10	MR. TORPEY: Could you read back my question
11	that day, but if this photograph accurately represents	111	that he answered. I just want to have that again.
12		12	(Record read by the reporter.)
13		13	MR. TORPEY: Okay. That's fine.
1	the contract of the contract o	14	Q. Let me ask you to look at Exhibit 11, which I
14		15	think you have in front of you; correct, sir?
15	•	16	A. Yes.
16		17	Q. Have you ever had a chance to read that
17	the state of the s	18	statement before.
18	your cockpit to trie forward wing position in this is an	1.0	JUICETTO IN THE STATE OF THE ST

Q. When did you last read it?

A. I do not recall. 21

A. Yes.

Q. Have you read it in the last couple of days

since you've been here or last day? 23

A. I do not recall. 24

Q. When was the last time you talked to

Q. So you're saying that this is not an accurate

A. I think it would be totally different. The

but on land the situation would be different.

Q. How would it be different?

view would be radically different.

19

accurate representation of the scene on October 7, 2003? 19

A. This is an aerial photograph taken from above,

20

22

	Page 82		Page 84
1	Mr. Yamaguchi?	1	A. Yes.
2	A. Yesterday.	2	Q. Let's look at that statement. And if you look
3	O. And where was that at?	3	at it says Dear Mr. Mckenny, and you look to the
4	A. At the Hilton Hotel.	4	second paragraph underneath That it says that you as the
5	Q. Okay. Were you staying at the same location	5	first officer seated in right-hand seat, your duty was
6	as he?	6	pilot flying. You see that?
7	A. Yes.	7	A. Yes.
8	Q. And what did you two discuss?	8	Q. And underneath that you see some time
9	A. I do not recall specifically.	9	references, 18:48, 18:55, 19:30. Do you see that?
10	Q. All right. Now, let's turn to the statement,	10	A. Yes.
11	Exhibit 11. Do you remember giving a statement and	11	Q. Do you know who provided those time references
12	having it typed out?	12	for inclusion on this statement?
13	A. I don't know if it was typed out.	13	A. I do not have a clear recollection, but it was
14	Q. Do you know who took this statement from you?	14	probably me.
15	A. I do not know the name, but it was someone	15	Q. Okay. If it was you, do you know from what
•		16	information you would have gotten those times to provide
16	from the company.	17	them?
17	Q. From ANA?	l	
18	A. Or some governmental authority from the U.S.	18	A. Well, with the clock out, the log starts, so I
19	I don't recall which.	19	can tell the time that way.
20	Q. When did you go back to Japan after this	20	MR. TORPEY: Give me again, that answer.
21	October 7, 2003 incident?	21	(Record read by the reporter.)
22	A. I think it was the day after or two days after	22	MR. TORPEY: Q. What are you referring to as
23	the incident.	23	the clock and the log?
24	Q. Did someone have a tape recorder and take the	24	A. I didn't say log. The clock is the clock in
25	statement from you?	25	the aircraft.
	Page 83		Page 85
1	A. I have forgotten.	١,,	Q. Is that the Hobbs?

Do you know whether there were any other statements that you were asked to sign or review in addition to the one that you signed here and we marked as Exhibit 11? A. I do not know. Q. With regard to this statement, which is dated October 8, 2003, would it be fair to say that strike that. This statement, Exhibit 11, has a date of October 8, 2003. Do you see that? A. Yes. Q. And so this statement by you would have been provided on or before strike that. The statement would have been provided by you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. I don't know what you mean by that. Q. Describe for me what the clock is you're referring to from which you got the information that is on this exhibit. A. There is a clock that has a diameter of about 10 centimeters on the aircraft. Q. Well, what does that clock do? Just tells you the time of day, or does it tell you something about the operation of the aircraft, or what does it do? A. It serves several functions. It shows UTC in the time sequence, it also works as a stopwatch. It also tells us the Japan time, and it also tells us the day according to the western California. Q. What is 18:48? What is that referring to? Is that Japan time? A. No. I think it is UTC. Q. Do you know for sure, or are you guessing at this point? A. I am sure. Q. Now, after the impact, how long was it that you and the others were in the aircraft before it was
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Exhibit 11, is that your signature? A. Yes, I think so. Q. Do you recall whether there was any prior drafts that you reviewed before you signed that statement? A. I have forgotten. Q. Do you know whether there were any other statements that you were asked to sign or review in addition to the one that you signed here and we marked as Exhibit 11? A. I do not know. Q. With regard to this statement, which is dated October 8, 2003, would it be fair to say that strike that. This statement, Exhibit 11, has a date of October 8, 2003. Do you see that? A. Yes. Q. And so this statement by you would have been provided on or before strike that. The statement would have been provided by you either on October 7 or no later than October 8, 2003,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. I don't know what you mean by that. Q. Describe for me what the clock is you're referring to from which you got the information that is on this exhibit. A. There is a clock that has a diameter of about 10 centimeters on the aircraft. Q. When you don't have a clear recollection, is that another way of saying you don't have an accurate recollection? A. No. That's different. Q. Okay. Then how is it different? A. Whatever I recall accurately, I recall accurately. Q. And if you don't recall it accurately, you don't have a clear recollection? A. I think the meaning is a little different. Q. Well, did you fly or deadhead back after this accident? THE INTERPRETER: Can I have that question. (Record read by the reporter.) THE INTERPRETER: I don't understand the question. MR. TORPEY: Q. When you returned to Japan after the October 7, 2003 incident, did you return as a flying member of a crew, or were you a deadheading passenger back?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. I did various things. For example, I did tasks that I were assigned, and things that have to be done to return to the terminal, so I did those things. Q. Tell me what those things are? A. I think Captain Yamaguchi was making an announcement. Q. To the passengers? A. Yes. Q. And other than that, what else was done by you or the others of the flight crew? A. I can't recall everything, but I think I was making contact with the cabin attendant also. Q. Other than making the announcement, the captain that is, and you contacting the flight attendant, what about with regard to the aircraft and its systems? What did you do, if anything? A. I turned the AP in order to shut the engine down. Q. What's the AP? A. APU. Q. Auxillary power unit? A. Auxillary power unit. Q. You turned that on and shut the engines off?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	What does it mean in your mind that you do not have a clear recollection? A. It is just as I said. Q. When you don't have a clear recollection, is that another way of saying you don't have an accurate recollection? A. No. That's different. Q. Okay. Then how is it different? A. Whatever I recall accurately, I recall accurately. Q. And if you don't recall it accurately, you don't have a clear recollection? A. I think the meaning is a little different. Q. 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	turned the other engine off. Q. Okay. Do you remember which engine you shut down first? A. Probably it was the right engine. Q. Were you following a checklist in doing your shutdown procedures? A. There is no engine-shutdown checklist. Q. With regard to the cockpit voice recorder, do you know if there is a tape or a CD or what is the mechanism in the cockpit voice recorder that's used to record the transmissions or the discussions? A. I do not know about that. Clearly. Q. Let's go ahead and look at your statement, which is Exhibit 11, unless you want to take a break. MR. TURNER: We have been going close to an hour and a half. It probably would be appropriate to take a break. MR. TORPEY: You want to take a break? MR. TURNER: Yes. THE VIDEOGRAPHER: Going off the record. The time on the monitor is 3:28 p.m. (Recess taken.) THE VIDEOGRAPHER: Coming back on the record.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	you taxied prior to the impact in the navigation log; correct? A. No. What I recorded was the block-out time. Q. Was the what time? A. Blocked out time. Q. What does blocked out time mean? Oh, I'm sorry. 18:48 was the time that you were released from the gate; is that correct? A. Yes. Q. Looked out means simply they removed the chalks from the wheels; correct? A. Yes. Q. Now I'm sorry. Go ahead. A. That is the time that the aircraft began to move as it is towed by the towing car. Q. And you would have written that down in the nava you or Mr. Yamaguchi would have written that down in the navigation log; correct? A. Yes. Q. Now, the next reference on Exhibit 11 is 1855. You see that? A. Yes. Q. Would that be the point at which you started
23	The time on the monitor is 3:44. Please begin.	24	the taxi?
25	MR. TORPEY: Q. Mr. Nishiguchi, the	25	A. Yes.
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Page 91 statement, Exhibit 11, if you would look at that again. A. Yes. Q. We had talked before the break about those time references like 18:48, and that that was, you believed, times that you personally provided to the person taking the statement and that those times were UTC times from the clock on the aircraft. Is that a correct characterization of your testimony? A. Yes. Q. Now, as you were taxiing before the impact, you had no reason to write down — look at the clock and write down what time events were occurring, and in fact you did not do that; correct? A. Ordinarily, I do write it down. Q. Okay. Where would that information be written down? A. There's a navigation log that we receive	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Page 93 Q. And you start the taxi when you are at the engine-start line; correct? A. Yes. Q. And the final time on the statement 19:30 is when you were towed back and actually back at the gate in the chalks or the blocks? A. Yes. Q. Now, if you look at 18:55, do you see that? A. Yes. Q. It says started taxi then contacted ground with 121.8. And then it goes on to give a number of subparts, clearance, talks about during the taxi something happened, approaching spot 10. In fact, there are one, two, three, four, five lines under the time reference of 18:55 where you started to taxi. Do you see that? A. Yes. Q. The time that you did each of those subparts,
18	through the dispatch, and that is where I would write it	18 19	the time after 18:55, that you do not know; correct?

- A. Yes.
- 3 Q. If you go to the next one it says clearance was, and then in a bracket it says, taxi to RWY28L. Do 5 you see that discussion?
 - A. Yes.
- Q. Do you know why that information, some of it 8 is in a bracket?
- 9 A. I think I was so instructed, so I wrote it 10 this way.
 - O. Do you know why you were instructed to write it that way?
 - A. I believe that the portion in the brackets is a quote from the ground.
 - Q. Oh, okay. Understood. So if looking at your statement, Exhibit 11, anything that's in brackets you believe to be a quote from a source other than yourself; is that correct?
 - A. Yes. It is a direct quote from the source.
 - Q. Now, the parts that are not in brackets, that would be the information taken from you; correct?
 - A. No. This is an English translation of my statements.
 - Q. I understand that. But the language that's not in brackets would have been provided by you, albeit

1 performed a deviation to the left of center; correct?

- A. No.
- Q. What are you referring to when you say deviated to the left side of the line for additional clearance to the UAL B777?
 - A. Since I saw the UAL B777 to the right, I deviated to the left side of the yellow line a little.
 - Q. Okay. And what was the reason that you deviated -- strike that.

Was the reason that you slowed and deviated to the left of the yellow centerline -- strike that.

Page 96

You say that you slowed and deviated to the left of the yellow line for additional clearance. What did you mean by additional clearance?

MR. TURNER: Objection as to form and foundation.

THE WITNESS: I'm talking about the clearance or space between the UA aircraft.

MR. TORPEY: Q. The space between your aircraft and the United aircraft, is that what you're talking about when you said you deviated from the yellow line for additional clearance?

A. The yellow line means centerline of the taxiway, and clearance refers to the space between the two.

Page 95

in the Japanese language, and then translated into English, and now appearing on Exhibit 11; is that correct? Let me rephrase it.

I guess another way to put it is, would it be fair to say that anything on Exhibit 11 under the time reference 18:48 or 18:55 that is not in brackets, would have been information taken from you, in other words, they're your words translated from Japanese to English?

- A. Yes.
- O. Let's look under 18:55 where it says here during the taxi I continually -- I continuously maneuvered the nose gear on the yellow line except for the very last part.

And then the next line says, approaching spot 10, I saw a UAL B777 starting pushout then slowed taxi speed and at the same time deviated to left side of the vellow line for additional clearance to the UAL B77?

- A. Yes.
- Q. You say then slowed taxi speed. You're referring to your aircraft, the ANA aircraft; correct?
 - A. Yes.
- Q. And at the same time deviated to the left side of the yellow line for additional clearance to the UAL B777. Again the deviation to the left you're referring to is a deviation to the left of your aircraft, you

- Page 97 Q. Clearance refers to the space between the
- 2 centerline on the taxiway and the United aircraft? Is 3 that what you're saying? 4
 - A. I don't understand.
 - Q. By deviating, in other words, turning your aircraft to the left of the centerline, by doing that, you were attempting to create a greater space or clearance, as you call it, between your aircraft and the United aircraft; true statement?
 - A. The clearance means that, but I didn't turn to the left.
 - Q. You inputted a heading change to the left of the centerline; correct?
 - A. No.
 - Q. Now, did you maneuver -- what did you do to deviate -- strike that.

What did you do in terms of your piloting the aircraft to direct it to go, as you recall it, deviate to the left side of the yellow line. What did you do?

- A. Without any big input, the aircraft can deviate a little to the left.
- Q. Sir, as the flying pilot that day, what control inputs did you impart on that aircraft to make the heading change to deviate to the left of the yellow line?

Page 98

- A. I do not have a clear recollection.
- Q. Do you have any recollection?
- A. Even if one follows the centerline, the aircraft can deviate several centimeters to the left. And so it was that degree. The nose gear is about 5 meters below me, so I just have a sense of being -- of trying to go along the centerline, but one doesn't know specifically.
- Q. Could you hand me that exhibit, please. Mr. Nishiguchi, let me ask you once again.
 - A. Yes.

- Q. If you look at your statement, it says here you deviated to the left side of the yellow line for additional clearance to the UAL 777, and it says that you did that as you slowed the taxi speed, or at the same time that you slowed; correct?
- MR. TURNER: Objection is to form and foundation.
- MR. TORPEY: Let me rephrase. I'll restate it.
- Q. It says in your statement here that as you approach spot 10, you saw the United aircraft start to push out. You stated earlier that you slowed taxi speed, being your aircraft, and in your statement you say at the same time you deviated to the left side of

Page 100 provided to the NTSB, you say that you slowed taxi speed and at the same time deviated to the left side of the

yellow line for additional clearance to the UAL Boeing
777.
What was your reason for slowing and at the

What was your reason for slowing and at the same time deviating to the left for additional clearance? What was the reason you felt you needed to do that?

A. Well, there was an aircraft that was pushing back from nowhere. I saw this aircraft, so I reflexively, should I say, deviated to the left of the centerline. I felt that by applying the brakes I could see better.

MR. TORPEY: Was the word reflexively? THE INTERPRETER: Uh-huh.

MR. TORPEY: Q. Mr. Nishiguchi, as the flying pilot of the aircraft that day --

THE INTERPRETER: Excuse me. Reflex action. As a reflex action may be better.

MR. TORPEY: Q. Could you restate the answer then using the correct terminology, please.

THE INTERPRETER: Yes.

THE WITNESS: Well, I saw another aircraft pushing back from nowhere to the right. I saw this aircraft, and so as a reflex action, I deviated to the

Page 99

the yellow line for additional clearance to the UAL Boeing 777.

Is that still a true statement, sir?

- A. This is what I said at that point in time.
- Q. And at that point in time, that was at most a day after the accident; correct?
 - A. I'm not sure.
- Q. Well, you're not sure. But the accident happened on October 7, and this statement is dated October 8, isn't it, Mr. Nishiguchi?
 - A. Yes.
- Q. Would it be fair to say that since today is November 28, 2007, and since this accident happened on October 7, 2003, that your recollection would certainly have been better on October 8 of 2003 than it is today. Fair statement, sir?
 - A. Yes.
- Q. Now, in your statement, which you signed, you understand that this was a statement that was provided to the National Transportation Safety Board, that's the U.S. government investigation arm that investigated this collision at San Francisco Airport.

You understood that; right?

- A. Yes.
 - Q. And in that statement that you signed and

left to the centerline -- to the left of the centerline.

I thought that if I applied the brakes. I would be ab

I thought that if I applied the brakes, I would be ableto see better.

MR. TORPEY: Q. Was there a discussion within the cockpit before you slowed and deviated to the left about your doing that, in other words, before you did it, was there a discussion about doing that?

- A. I do not recall.
- Q. You don't recall one way or the other?
- 10 A. I do not recall whether or not there was a 11 discussion.
 - Q. Would you agree with me, if there was a discussion, that your decision was not a reflex action but an intentional decision to slow and turn -- slow and deviate to the left?

MR. TURNER: Objection as to form and foundation.

MR. TORPEY: Let me just restate the question in light of the objection.

Q. Mr. Nishiguchi, if it's shown in this case that there was, in fact -- was, in fact, discussion within the cockpit before you slowed and deviated to the left, discussion about your doing that, would you agree with me that it was not a reflexive action but rather a conscious decision by you to slow and deviate to the

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Page 106 MR. TORPEY: Let's see what else you have. MR. TURNER: These are the training records, two pages, last column and second from last column are blacked out, redacted. Just ask the witness, is this his employee number on the upper right-hand corner? THE WITNESS: Yes. MR. TORPEY: Can you tell us what's rediscussed and why you redacted it? MR. TURNER: Those contain comments, personal information, and we consider that to be confidential and subject to the Japan act for the protection of personal information. And as mentioned by Mr. Yamaguchi yesterday, we have obtained a copy of the modification to, I think his term was, a document in the routing manual after the accident, which I do not think is admissible, but it is possibly discoverable. So this is one page dated on the upper left-hand corner 17 October '03, airport briefing, San Francisco, California. MR. TORPEY: So let me get this straight. You're giving us today one page of the routing manual that was asked for previously? MR. TURNER: I don't recall the routing manual ever being asked for.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	certificate. And next certification number is written. Q. Just tell me the nature of the documents. I don't need you to go through all the information on them. A. The next is a document called ratings and limitations. And the other side of that card is the next page. And this next copy is a copy of the aviation English language proficiency certification, and the next page is a copy of the aviation medical examination certificate. And a copy of the other side. And the next page is a copy of my aviation radio communication license. And the next page is my ris the page giving the scores of my various examinations, and the next page is a continuation of that. And typically there is the airport briefing of San Francisco Airport. Q. The airport briefing document that you just mentioned, is that part of the routing manual? A. Yes. Q. And is that a manual that would have been on the 777 aircraft on October 7 of 2003? A. I do not have a clear recollection. This could have changed. Q. Would there have been a routing manual if
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Page 107 MR. TORPEY: I see. So the document you're giving me is one page from the routing manual? MR. TURNER: That's what Mr. Yamaguchi yesterday described as the document in the routing manual. MR. TORPEY: For the record, that one says at the top, Airport Briefing 1, dated 17 October of '03. Do you have any other documents you're producing today? MR. TURNER: No. MR. TORPEY: Let me mark I don't have a copy of that. Apparently you have some documents that you redacted. I don't have a copy of that. Let me mark all the documents that were just produced as Exhibit 12. (Whereupon, Exhibit 12 was marked for identification.) MR. TURNER: May I see it, please.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that page didn't come from the one that was on the aircraft on October 7 of 2003, would there have been a routing manual on the aircraft on that date? A. I had the most recent and the to-date effective manual at that time. Q. The question though, sir, is, was there a routing manual on your aircraft on the day of this accident? A. The three people who had route manuals were onboard, so as a result it would mean that the route manuals were onboard. Q. The information that's blacked out, what kind of information is that, do you know? A. I do not know. And at the top it is written overall findings, and that's about me. Q. Did anyone ask you whether you agreed to release that information to us? A. No.

the judgment that has to be considered. Q. Okay. Let me ask you, earlier in the

deposition you indicated that after you -- strike that.

Q. And do you have any problem with us getting

copies of those documents without all the lines blacked

You indicated that you made the deviation to the left to attempt to see better. Were you, in fact, able to see better after deviating to the left?

A. Perhaps I did not say it the correct way. I didn't deviate or veer to the left to see better. I did SO --

THE INTERPRETER: The interpreter will restate.

THE WITNESS: Perhaps I did not express myself well. I did not deviate or veer to the left to see better. I applied the brakes in order to see better.

MR. TORPEY: Q. And after you applied the brakes, were you able to see better?

A. Yes.

Q. What is it that you were able to see better? Would that have been the United aircraft?

A. By lowering speed, I was able to see the United aircraft better and I was able to improve visibility, improve the ability to see all things that were visible or in my visibility.

Q. Have you ever heard of the term wing growth? THE INTERPRETER: Wing growth? THE REPORTER: Wing growth.

24 THE WITNESS: No. 25

MR. TORPEY: Q. If you input -- have you ever

1 Q. Well, that's why I asked you if you would do 2 anything else, sir. If you pushed both brakes, then 3 you're not going to change heading, you're going to 4 stop, right, or slow? 5

A. It depends on the pressure applied to the brakes -- it depends on the brake pressure.

Q. If you were to apply left brake pressure and no brake pressure to the right, can you impart a heading change from 060 to 055 on a 777 aircraft?

A. I'm not sure.

Q. Let's say you could -- strike that.

When you make a heading change while taxiing on the ground, a heading change from 060 to 055, do you know what the direction of movement of the right-hand wing would be during that time frame?

A. Would it not move 5 degrees to the left?

Q. Well, I'm asking you the question, sir. The question is, do you know even today what the movement of the right-hand wing of a 777 aircraft would be when you impart a heading change from 060 to 055? If you don't know, just tell me.

A. I know it will resolve 5 degrees to the left.

Q. So in other words, when you say 5 degrees to the left -- would another way to put it be that it translates radially?

Page 111

applied brake pressure to initiate a heading change while taxiing on the ground?

A. Are you inquiring if the heading was changed based on braking?

Q. My question to you, sir, is as a pilot, have you ever in being a flying pilot on a 777 inputted a heading change -- strike that. Let me start over.

Have you ever inputted a heading change on a 777 aircraft by applying brake pressure?

A. Yes.

Q. And in order -- say you were taxiing along a yellow centerline and you wanted to make a heading change from say 060 degrees to 055. Would you apply left or right brake pressure to do that?

I'd like those numbers again.

THE INTERPRETER: The interpreter will say it in Japanese.

MR. TORPEY: Q. 060 to 055.

A. I would apply both.

Q. You would apply left and right?

A. Yes.

Q. Would you do anything else?

22 A. No. I wouldn't do anything in particular. I 23

don't know if I have ever changed as much as 5 degrees 24

based on brake pressure alone. 25

Page 113

Page 112

1 A. I'm going to show with my hand movement. 2 Let's say this is the left wing, when the nose goes 3 left, the left wing will move 5 degrees.

Q. In other words, it goes -- let me see if we can do this.

I admit I'm not an artist. Okay. In a situation -- let me do this.

THE VIDEOGRAPHER: Three minutes to tape change, Counsel.

MR. TORPEY: Why don't you change it. It would probably be a good idea.

THE VIDEOGRAPHER: This concludes Videotape 3 in the deposition of Yusuke Nishiguchi. Going off the record. The time is 5:03.

(Discussion off the record.)

THE VIDEOGRAPHER: Here begins Videotape 4 of the deposition of Yusuke Nishiguchi. Coming back on the record. The time is 5:04 p.m. Please begin.

MR. TORPEY: Q. Sir, looking at this drawing, can you tell me which direction this right wing will move when you apply left brake pressure to impart a heading change on a 777 aircraft from 060 degrees to 055 degrees? Show me which direction this right wing moves.

A. It would move upward by 5 degrees.

	Page 114		Page 116
1	Q. So in other words, it goes this way; correct?	1	CERTIFICATE OF REPORTER
2	A. No. It would go diagonally upwards	2	I, BRANDON D. COMBS, a Certified Shorthand

5	Q. We'll draw that. Why don't I hand this to you	5	truth, the whole truth, and nothing but the truth in the
6	and draw what you believe to be the direction of	6	within-entitled cause;
7	movement.	7	That said deposition was taken in shorthand by
8	MR. TORPEY: Do you have another colored pen?	8	me, a disinterested person, at the time and place
9	While he's doing that, why don't we mark that.	9	therein stated, and that the testimony of the said
10	(Whereupon, Exhibit 13 was marked for	10	witness was thereafter reduced to typewriting, by
11	identification.)	11	computer, under my direction and supervision;
12	MR. TORPEY: Q. Let me show you what we	12	That before completion of the deposition,
13	marked Exhibit 13. Please draw on here the movement of	13	review of the transcript was not requested. If
1		14	requested, any changes made by the deponent (and
14	the right wing we've been discussing, and you can use		
15	the red pen to do that, please. Do it on the drawing.	15	provided to the reporter) during the period allowed are
16	Actually, do it on the right wing. Show it.	16	appended hereto.
17	A. I drew a magnified version, so the degree	17	I further certify that I am not of counsel or
18	there would be about 30 degrees, but the actual movement	18	attorney for either or any of the parties to the said
19	degree would be one-sixth of that.	19	deposition, nor in any way interested in the event of
20	 Q. But the direction would be as indicated on 	20	this cause, and that I am not related to any of the
21	Exhibit 13; correct?	21	parties thereto.
22	A. Yes.	22	DATED: November 29, 2007.
23	MR. TORPEY: Thank you very much, sir. I	23	
24	don't have any other questions.	24	
25	And I say I don't have any other questions,	25	BRANDON D. COMBS, CSR 12978
